

Do you want to work for a Top 100 WealthTech company?

3rd-eyes has been selected as a global WealthTech 100 company recently. Besides this award, we have won several other awards like the the F10 Accelerator Product to Market Programme and have formed part of the Swiss National FinTech Team from Venturelab.

We have been active since 2015 and focus on the Swiss and German Market but serve clients in other markets as well. 3rd-eyes is the software partner of choice for banks, insurance companies, asset managers and investment advisers that wish to implement a digital goal-based advisory process.

The 3rd-eyes advisory suite combines a wealth planning module that calculates the optimal asset allocation based on customers' goals and individual situations. Investment products are then recommended based on an algorithm that takes into consideration the client's individual investment criteria, such as investment style or personal values like climate change.

We are expanding our team and are looking for a

Full-Stack HPC Developer (m/f, 60-100%)

Your Profile

- Significant experience as Full Stack Software Engineer coding in Cxx (C, C++, C#), CUDA Python and JS
- Experience in setting up Docker containers and Kubernetes clusters in Azure and/or AWS
- Well versed in GiT, Jenkins and OpenAPI
- English is a pre-requisite

Your Tasks

- You drive the development of our core computing engines and co-operate closely with our international software development team
- You integrate the computing engines into the front-end and back-end systems

Our Offer

- Working place in Zurich and flexibility to work from home
- Growth perspective in a very dynamic environment, embedded in a high profile and international team
- Entrepreneurial environment with a lot of creative freedom

We look forward to receiving your application!
